

Student Performance Maximized

Dear Goodrich High School Families,

We are pleased to offer you an online, adaptive program to help maximize your student's standardized SAT test scores. PREPWORKS SAT and ACT programs are national, award-winning combinations of courseware and software designed to deliver instruction and practice to students across multiple performance levels.

PREPWORKS is available to Goodrich students in grades 9-12, and may be accessed on any internet-ready device. This program will be used as part of school through the Math and English department and assigned as homework. PREPWORKS online can be used as a stand-alone solution for test preparation or as a complement to Kahn Academy instruction as well. Over the past several years, this courseware has helped students improve an average of 200-300 SAT points and 3-5 ACT points.

Access to the program is easy. Your student will navigate to: els.myprepworks.com and enter their Student ID Number as BOTH username and password. Students have access to the NEW SAT adaptive test prep program.

To view a Pacing Guide for the program, please go to this site:

- [Myprepworks.com/sat](https://myprepworks.com/sat)

How does it work?

PREPWORKS Learning Positioning System® (LPS) is the educational equivalent of a GPS navigation system, gathering thousands of data points based on each student's individual responses to provide customized Learning Paths to help students maximize achievement on exams. Content is divided into Blocks, and students begin with short Skill Assessments. Based on student performance, LPS technology will read the student's personal strengths and weaknesses to deliver custom-tailored content. As the student continues to answer questions and complete activities, the LPS will re-calculate each student's Learning Path to maximize results. Each Learning Module takes between 25-45 minutes to complete.

Program features:

- Three full-length Practice Tests that serve as comprehensive practice activities
- Thousands of real test questions specific to individual performance levels
- Weekly live Online help from PREPWORKS tutors via video, chat, & screen-share

If you have technical questions, support@myprepworks.com or call (855) 365-7737. We hope you enjoy the program, and we look forward to seeing your progress this year.

Thank you,

Dave St. Aubin, Principal
